## Learning Today...

## Leading Tomorrow

Welcome back. We hope everybody is safe and getting back to normal after Hurricane Irma. We welcome our new Assistant Site Manager, Ms. Cathy Bratkovic. We have a lot of fun things planned and we are looking forward to a great year!!

#### Project Based Learning (PBL)

Students are being introduced to different computer applications by engaging in hands on projects through Microsoft, Power Point and Word. They are acquiring the techniques through technology and research they will utilize throughout their educational careers. Their first PBL is Power Point "All About Me" and what makes them who they are. Students have chosen a state and researched all the background information and an animal that is endangered and native to their state.
