June 2015

DELTA Academy Students building simple motorized machines.

Important Information:

**D-determination
E-education
L-leadership
T-talent
A-achievement**

- Summer hours for DELTA Academy will be Monday – Friday 8:00 a.m. – 6:00 p.m.
- Please remember that on Field trip days, if students are not here on time for the field trip they will not be able to attend that day. All DELTA Academy staff will be chaperoning field trips and, no one will be at the site to accommodate students.
- More information about field trips can be found on the monthly calendars being sent home with your students!
- Keep in mind that every day will involve some outdoor activities. Appropriate footwear and sunscreen are highly encouraged!
- Each Friday during the summer there will be a physical fitness activity where students will get wet. A towel and change of clothing is recommended.

Get your Spark On!

This month students will be introduced to a variety of outdoor games and challenges that, will not only improve their physical fitness, but will engage their minds and, build teamwork skills. There will also be daily courses teaching the skills of Basketball and, Frisbee Golf.

When the going gets tough...

Students will be learning about preparing and surviving during the upcoming weeks through “project based” STEM activities such as; preparing an emergency kit from common household items while putting those engineering and critical thinking skills to use!

Who is Patient Zero?

Students will be putting their critical thinking skills to the ultimate test this month! They are going to be racing the clock to find “Patient Zero”. So that they can then find a way to stop the spread of the **Walking DELTA virus**.
