Going to Extremes!

Students are currently participating in a PBL called "Going to Extremes."

They will be learning how to produce a publication on extremes that is both informational and entertaining!

Robotics

We are very excited to announce the first round of our new Robotics course!

Students will be building, and programming several different models of robots!

We are very excited to see them challenge themselves and succeed!

Personal Enrichments

Each day your student has the opportunity to participate in two different enrichment activities that they choose.

The current personal enrichment opportunities are:

- Robotics (Building and programming robots)
- Tennis (learning the basics)
- The Next Avatar(Create your own organism and it's environment)
- Presidential Fitness (Get in Shape!)
- Not Your Everyday Art (Learn different art techniques)
- It's A Balancing Act(Engineer a theme Park ride)
- Super Commercials!(Make your own ad campaign)
- Community Involvement (Become a Youth Peer)

Happy Birthday!!!

- Joshua Warren Sept. 19
- Lilly Dowden Sept. 28
